OBJECTIVE

A seasoned professional with seven years of experience in Analyst Troubleshooting coupled with four years of expertise in Web Development, seeking a challenging role where I can leverage my analytical skills and technical proficiency to contribute effectively towards achieving organizational objectives.

PROFESSIONAL EXPERIENCE

SYSTEM ENGINEER – BONIFACIO GLOBAL CITY, TAGUIG

September 2023 – Present

- Collaborate with cross-functional teams to define, design, and ship new features, proactively troubleshoot and optimize code for enhanced performance, and continually research and implement the latest technologies to keep applications at the forefront of usability and innovation.
- Collaborate with cross-functional teams to define, design, and ship new features, proactively troubleshoot and optimize code for enhanced performance, and continually research and implement the latest technologies to keep applications at the forefront of usability and innovation.
- Collaborate with cross-functional teams to define, design, and ship new features, proactively troubleshoot and optimize code for enhanced performance, and continually research and implement the latest technologies to keep applications at the forefront of usability and innovation.

IT SERVICE DESK – QUEZON AVENUE, EDSA

Level 1, June 2022 – June 2023

- Collaborate with cross-functional teams to define, design, and ship new features, proactively troubleshoot and optimize code for enhanced performance, and continually research and implement the latest technologies to keep applications at the forefront of usability and innovation.
- Collaborate with cross-functional teams to define, design, and ship new features, proactively troubleshoot and optimize code for enhanced performance, and continually research and implement the latest technologies to keep applications at the forefront of usability and innovation.

FRONT-END & BACK-END DEVELOPER – MANILA, QUEZON CITY

Freelance, 2020 – Present

- Design and develop responsive, high-performance web applications using modern frameworks and libraries such as React, Laravel, or Next.js, ensuring cross-platform compatibility and implementing best practices in UX/UI design.
- Lead the full lifecycle of mobile application development, from concept and design right through to testing and deployment.

IT SPECIALIST – MANILA, QUEZON CITY

Freelance, 2018 – Present

• Serve as the primary point of contact for troubleshooting issues related to server-client networks, including diagnosing and resolving hardware, software, and network malfunctions.

• Manage and maintain optimal operation of all network systems, including LAN/WAN, VPN, and connectivity protocols; ensure the integrity of high availability network infrastructure to provide maximum performance for users.

• Conduct regular system installations and configurations, monitor network performance, and execute testing routines to ensure that networks are running without interruption.
